

3D STAR

World Champion 2013 & 2014

We have improved the 2015 boat after the feedback and testing we did at the World Championship. The midship frame has been made thicker – that give more weight in the center of the boat. Still our boats are on minimum weight – just with 250 gram more in the center of the boat.

Things that make the 3D STAR unique

-  3D improved hull shape
-  Low friction bottom.
-  Stiffer hull - obtained by using 15% stiffer foam in the bottom hull.
-  Advanced Winner maststep: Stiffer, stronger and less wobbling.
-  Ronstan Orbit block system incl. Optilink.
-  New non-slip in front of the daggerboard case.
-  Special, Ergonomic Winner toe-straps. (Perfect Grip)
-  New daggerboard tape and plug system (Singapore style)
-  Stiff midship frame.

All these features not the only things that distinguish a Winner from other optimists. Through our obsession with details and strong focus on quality, we have engineered the #1 optimist in the world.

Our philosophy is: The best materials and the best craftsmanship generate the best boat! This creates a more costly boat, but less maintenance and better durability makes sure that the superior sailing performance is retained throughout the boat's lifetime. This assures a longer life span – and thereby making Winner an inexpensive boat in the longer term.

For instance, we use the best Gelcoat in the world. This Gelcoat makes us able to give the hull a much more hydrodynamic surface. We also use fibreglass that is up to 50% more expensive than other fibreglasses. This gives superior torsion resistance and stiffness.

To make sure that every boat, which leaves us, is 100% Winner quality, we have invested in the most high-tech and environment friendly optimist plant in the world. Located in Denmark, our highly qualified craftsmen are recruited locally and are the best in their field.

5 years of guarantee on our hulls. No other can offer you that!

Winner 3D STAR

The new 3D Designed Optimist - build in CNC milled moulds!

- IOD hull incl. all fittings and ropes
- High-grade fibreglass reinforced polyester
- Biaxial cloth for reduced torsion
- Low friction bottom
- Winner advanced maststep
- Special, Ergonomic Winner toe-straps. (Perfect Grip)
- New non-slip in front of the daggerboard case
- Ronstan Orbit block system incl. Optilink
- Grey airbags w. tube
- Adjustable elastic for dagger board trimming
- New daggerboard tape and plug system
- Optimax deck collar
- Mast lock
- I.M.Form & Register book
