

10 good reasons to choose winner

1 Superior Craftsmanship:

Winner have been dominating world competition for years, our people are, by far, the most experienced Optimist builders in the World. We have committed ourselves to keeping these master craftsmen right here at Winner by providing the best working environment possible. Each of our craftsman is a wealth of experience and expertise.

2 Focus and Commitment:

Winner builds only one type of boat, the Optimist, and we are totally committed to creating the most perfect Optimist possible. We build more Optimists than any other builder in the World, which gives us the experience to build them better. Our factory and our people are not diluted by other projects, we are singularly focused on one goal: the perfect Optimist Dinghy.

3 Expertise:

The people building your Optimist have been doing exactly that for more than 25 years, longer than anyone else. Your local dealer was chosen to represent Winner only after they had demonstrated that they are the most experienced, most qualified performance sailboat shop in your area.

4 No Corners Cut:

At Winner, we don't cut corners, ever. We could use less expensive blocks, but we use only the finest names in the industry. From raw materials to factory systems to hardware, we only use the best, no exceptions.

5 Controlled Construction:

Winner Optimists are built in the most controlled environment possible. Because fibreglass boats start life as rolls of cloth and barrels of chemicals, the right climate is critical. Any fluctuations in temperature or humidity have startling effects on the chemical processes that transform buckets of resin and drops of catalyst into the structural components of boats.

6 Eliminate the question mark:

We've earned our long standing reputation for quality and performance by ensuring that every boat is built to the same exacting standards. We can achieve truly consistent results

because we've engineered every aspect of the Optimist and we have the only temperature and humidity controlled Optimist factory in the world. When you buy a Winner, you'll never have to question if you got a "good boat" or not, every Winner is a great boat. No other manufacturer can promise that level of perfection and consistency. Every time you sail onto the course, you can be positive that you have the best equipment. Period.

7 Manufacturer Support:

We're always here to answer your questions and give advice. We are youth sailing experts and we can help you make the right decision on equipment, which regattas to attend and how to get more out of your boats, coaching and sailing program. That support is mirrored at the local level by the finest small sailboat dealers in the world, your local dealer was chosen because they are the very best youth sailing resource in your area.

8 Regatta Support:

At the National and International level, you'll find Winner at all major Optimist regattas. We're available to help you with any problems you might have and to help ensure you're regatta experience is easy and hassle free. Plus, we have charters available at most events, which means you can race the boat you practice in, even if you can't make the drive.

9 Winner is the choice of Champions:

No boat in the world have won more titles than Winner! 16 World Championships and 18 European Championships just to name a few. The best sailors in the world leave nothing to chance, they use only the very best equipment from the best suppliers. The Winner Optimist is, unquestionably, the choice of National and International champions. Your equipment is the one aspect of racing you control completely, give yourself an advantage.

10 Superior Value:

No Optimist lasts longer or holds its value better than a WINNER. After a year or 10 years, a WINNER will look and perform better than the competitors. We offer as the only Optimist builder in the world 5 years guarantee on our boats.

**SURE, WINNING ISTN'T
EVERYTHING
IT'S THE ONLY THING...**

DenMark RACE

DenMark 3D STAR

We have upgraded the most selling Optimist in the world!

DenMark RACE

Through our obsession with details and strong focus on quality we have engineered the #1 optimist in the world for the last 40 years.

Our philosophy is: The best materials and the best craftsmanship generate the best boat! This creates a more costly boat, but less maintenance and better durability makes sure that the superior sailing performance is retained throughout the boat's lifetime. This assures a longer life span – and thereby making Winner an inexpensive boat in the longer term.

For instance, we use the best Gelcoat in the world. This Gelcoat makes us able to give the hull a much more hydrodynamic surface. We also use fibreglass that is up to 50% more expensive than other fibreglasses. This gives superior torsion resistance and stiffness.

To make sure that every boat which leaves us is 100% Winner quality, we have invested in the most high-tech and environment friendly optimist plant in the world. Located in Denmark, our highly qualified craftsmen are recruited locally and are the best in their field.

In order to prove how much we trust in our self and our product, we offer **5 years of guarantee on our hulls**. No other manufacturer can offer you that!

DenMark RACE

- IOD hull incl. all fittings and ropes
- High-grade fibreglass reinforced polyester
- Harken racing blocks
- Low friction mast collar
- Padded toe-straps
- 4 trim plugs in centreboard case
- Adjustable elastic system for daggerboard trim
- Adjustable maststep
