

DenMark RACE

A boat with the winning DNA*

Through our obsession with details and strong focus on quality we have engineered the #1 optimist in the world for the last 40 years.

Our philosophy is: The best materials and the best craftsmanship generate the best boat! This creates a more costly boat, but less maintenance and better durability makes sure that the superior sailing performance is retained throughout the boat's lifetime. This assures a longer life span – and thereby making Winner an inexpensive boat in the longer term.

For instance, we use the best Gelcoat in the world. This Gelcoat makes us able to give the hull a much more hydrodynamic surface. We also use fibreglass that is up to 50% more expensive than other fibreglasses. This gives superior torsion resistance and stiffness.

To make sure that every boat which leaves us is 100% Winner quality, we have invested in the most high-tech and environment friendly optimist plant in the world. Located in Denmark, our highly qualified craftsmen are recruited locally and are the best in their field.

In order to prove how much we trust in ourself and our product, we offer 2 years of guarantee on our hulls.
